

IN COLOURS...

Rhino Linings® polyurethane is available in standard colours; ask your

Rhino Linings® dealer

for details. Linings can be sprayed to any desired thickness.

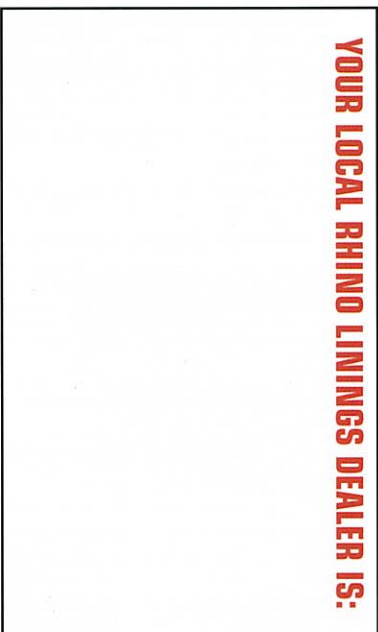

Why You Should Choose Rhino Linings Over Rubber Mats...

- Rubber mats allow moisture to collect underneath
- Rubber mats can tear and wear out
- Rubber mats rot and soften from oil, gas, acids, and solvents
- Rubber mats oxidize
- Rubber mats are difficult to remove and clean; if left too long, they can damage the trailer

RHINO LININGS® VS. OTHER COATINGS...

	SPRAYED ON RHINO LININGS	PAINT-LIKE COATINGS
Watertight Seal	✓	✘
Prevents rust and corrosion	✓	✘
Resists scratches and abrasions	✓	✘

FLOATS AND TRAILER APPLICATIONS

- Camper Trailers
- Animal & Horse Transportation
- Commercial / Heavy Duty Trailers
- Boat & Household Trailers

THERE'S TOUGH & THERE'S RHINO TUFF
Rhino Linings®
PREMIUM PROTECTION

Rhino Linings® is the worldwide leader in sprayed-on polyurethane linings for ute trays, trailers, boats and specialised industrial and marine applications.

Since 1988, **Rhino Linings®** have been providing the trailer market with a thick layer of protection under the most rugged conditions. The unique flexible and textured surface reduces slippage and will not crack, warp or peel even under temperature extremes.

Sprayed on up to 6mm thick (or any desired thickness), **Rhino Linings®** forms a permanent airtight and watertight seal when sprayed directly onto the substrate.

Rhino Linings® can also be sprayed over thick crumb rubber to achieve maximum cushioning for animals and humans alike!

BENEFITS OF RHINO LININGS

- Protects the trailer from the corrosive effects of waste and elements
- Forms an airtight and watertight seal, preventing rust and corrosion
- Will not crack, split, tear or warp like rubber mats or wooden floors
- Maintenance-free, easy to clean; no more waxing, sanding, repainting or tightening of screws
- Helps insulate the vehicle from road noise and vibration
- Increases the resale value of the vehicle
- Fully covers wood, metal or fibreglass surfaces
- Helps insulate the vessel from noise and vibration
- Solvent-free material becomes a solid in minutes
- Environmentally friendly and not readily combustible
- Easily accommodates all types and sizes of vehicles
- Forms a cushioned, non-skid surface for better footing for both animals and human
- Available in virtually any colour

Many trailers are delivered with open wood plank or steel floors. **Rhino Linings®** is the ideal floor covering for most trailers.

Crumb Rubber.
The perfect combination for seamless cushioning and sealing.

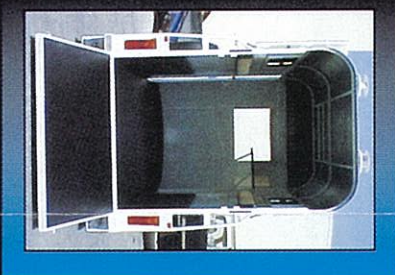

Finished trailer is well protected, easy to clean and lasts for years.

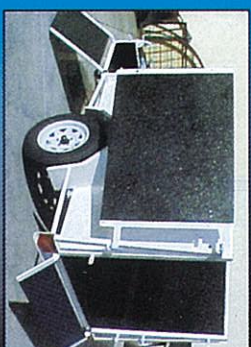

Rhino Linings® adds years to all recreational trailers.

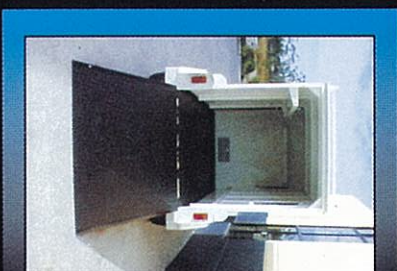

Protects boat trailers from weather and harsh wear.

Rhino Linings® is a 100% solid seal for all trailers.

Spray on a **Rhino Linings** and help protect utility trailers from impact and corrosion.

Trailers and lift gates are often sprayed with **Rhino Linings®** to help reduce noise.

No matter what size your trailer is, **Rhino Linings®** can protect the walls and floors.
